BROOKFIELD, Conn., Dec. 11, 2019 (GLOBE NEWSWIRE) -- [Photronics, Inc.](#) (NASDAQ:PLAB), a worldwide leader in photomask technologies and solutions, today reported financial results for its fiscal 2019 fourth quarter ended October 31, 2019.

Fourth quarter revenue was \$156.3 million, 13% better than the previous quarter and 8% better than the same quarter last year. Integrated circuit (IC) revenue was a record \$112.5 million, up 12% sequentially and 1% compared with the fourth quarter of last year. Flat panel display (FPD) revenue of \$43.7 million was also a record, up 15% compared with last quarter and 29% compared with the same period last year.

Net income attributable to Photronics, Inc. shareholders was \$9.7 million (\$0.15 per diluted share), compared with \$6.3 million (\$0.10 per diluted share) for the third quarter of 2019 and \$12.5 million (\$0.18 per diluted share) for the fourth quarter of 2018.

"Fourth quarter revenue was a record for us, marking the ninth consecutive quarter of year-over-year revenue growth and propelling us to record annual revenues for the second successive year. Design activity was robust across the majority of our customer base, and we continued to ramp production at two new manufacturing facilities in China," said Peter Kirilin, chief executive officer. "IC and FPD revenues were both a record. FPD benefited from strong mobile display markets and growing G10.5+ production, and IC saw an acceleration of design activity in China. Gross and operating margins improved sequentially due to high operating leverage and tight cost controls. During the quarter, we resumed our share repurchase activity while also growing our cash balance on strong operating cash generation. 2019 was a great year for Photronics, achieving record revenue, maintaining a strong balance sheet, demonstrating a commitment to return cash to our shareholders, and establishing a solid manufacturing presence in the rapidly growing China market. We are well positioned to build on this strength in 2020 and beyond."

First Quarter 2020 Guidance

For the first quarter of 2020, Photronics expects revenue to be between \$146 million and \$154 million, and net income attributable to Photronics, Inc. shareholders to be between \$0.13 and \$0.18 per diluted share.
