COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

Compensation Philosophy

The Compensation Committee of the Board of Directors (the "Committee") was established in 1992 and is responsible for the establishment of executive compensation and administration of the Company's stock plans.

The Committee's philosophy is that executive compensation must be competitive with other comparable employers to insure that qualified employees can be attracted and retained and that the Company's compensation practices should provide incentives and rewards for achieving or exceeding goals and for creating a return to the Company's shareholders. The Committee uses three components to achieve these goals: base salary, bonuses and stock-based awards.

The Committee evaluates and establishes base salary levels in light of economic conditions and comparisons to other similarly situated companies. Bonuses, if any, are dependent upon an evaluation of the Company's performance and achievement of its financial and other goals during the relevant period, and the achievement of specific objectives of each executive officer. Stock options awards, which the Committee believes provide a strong link between executive compensation and shareholder return, are used to provide long-term incentives based on shareholder return.

In establishing compensation levels for the executive officers of the Company, including the Named Executives, the Committee considers compensation at companies in the electronics industries with similar levels of sales and capital. The companies considered were not necessarily the same as those included in the performance chart below due to the difference in the size of the companies considered. The Committee adjusts executive compensation in connection with this review. Generally, the Committee believes that its expectation of performance of the Company and its executive officers should allow executive compensation to fall within the median to 75th percentile of compensation of this comparison group. The Committee believes that its three-part approach provides reasonable compensation to the executives which is aligned with the Company's needs and results and balances both short and long-term goals.

Section 162(m) of the Internal Revenue Code limits the Company's ability to deduct certain compensation (in excess of \$1,000,000 per year per person) paid to the Named Executives unless certain formal requirements are satisfied. The Committee believes, however, that its ability to subjectively evaluate executive officer performance is an important part of its function and its ability to provide incentives. Additionally, compensation paid to the Named Executives has historically not exceeded deductibility limits under Section 162(m). Accordingly, the Committee has not required that all compensation programs comply with Section 162(m), although the Committee considers compliance in establishing individual compensation components.

2001 Executive Compensation

The Committee considered the factors discussed above in determining executive compensation for the 2001 fiscal year.

Mr. Macricostas is currently the Chairman of the Board and the Chief Executive Officer of the Company. The Committee used the executive compensation practices described above in determining his 2001 salary. In setting the salary and awarding the grant of stock options, the Committee considered the overall assessment of Mr. Macricostas' leadership in establishing and achieving the Company's short-term business goals and long-term strategic plans. The Committee also considered the salaries paid to other chief executive officers of electronics companies comparable in size to the Company. The 2001 bonus was paid in recognition of Mr. Macricostas's contribution to completing several key acquisitions and developing the strategic initiatives undertaken by the Company in 2001.

Respectfully submitted,

Walter M. Fiederowicz, Chairman

Joseph A. Fiorita, Jr.

PROPOSAL 2
AMENDMENT OF THE COMPANY'S CERTIFICATES OF INCORPORATION
TO INCREASE THE AUTHORIZED NUMBER OF SHARES

The Company's Certificate of Incorporation currently authorizes the issuance of 75,000,000 shares of Common Stock, \$0.01 par value, and 2,000,000 shares of preferred stock, \$0.01 par value. On February 6, 2002, the Board of Directors of the Company adopted a resolution approving an amendment to the Certificate of Incorporation to increase the number of authorized shares of Common Stock from 75,000,000 to 150,000,000 and resolved to submit the proposed amendment to the shareholders at this Annual Meeting.

Purpose and Effect of the Amendment

The general purpose and effect of the proposed amendment to the Certificate of Incorporation will be to authorize the issuance of up to 75,000,000 additional shares of Common Stock. The Board of Directors believes that it is prudent to have the additional shares of Common Stock available for general corporate purposes, including acquisitions, equity financings, grants of stock options, payment of stock dividends, stock splits or other recapitalizations.

The Company currently has 75,000,000 authorized shares of Common Stock. As of February 12, 2002 the Company had 30,373,076 shares issued and outstanding and of the remaining 44,626,924 authorized but unissued shares, has reserved (i) 9,105,798 shares in connection with the possible conversion of outstanding notes pursuant to its 6% Convertible Subordinated Notes due 2004 and its 4 3/4% Convertible Subordinated Notes due 2006; (ii) 3,128,571 shares issuable pursuant to the Company's stock option plans (this number does not include the additional 1,500,000 shares of Common Stock described in Proposal 3); (iii) and 151,546 shares issuable pursuant to the Company's Employee Stock Purchase Plan.

Except in connection with the reserved shares described above, the Company currently has no arrangements or understanding for the issuance of any additional shares of Common Stock, although opportunities for acquisitions and equity financings could arise at any time. If the Board of Directors deems it to be in the best interest of the Company and the shareholders to issue additional shares of Common Stock in the future, the Board of Directors generally will not seek further authorization by vote of the shareholders, unless such authorization is otherwise required by law or regulations.

Although not a factor in the Board's decision to adopt the proposed amendment, the increase in the authorized number of shares of Common Stock could have an anti-takeover effect. The Board, however, does not believe that it will have such an effect. If the Company's Board of Directors desired to issue additional shares in the future, such issuance could dilute the voting power of a person seeking control of the Company, thereby deterring or rendering more difficult a merger, tender offer, proxy contest or an extraordinary corporate transaction opposed by the Company. The Board of Directors is not aware of any attempt or contemplated attempt, to acquire control of the Company and this proposal is not being presented with the intent that it be utilized as a type of anti-takeover device.

Vote required and Board of Directors Recommendation

The affirmative vote of a majority of the Common Stock entitled to vote will be required to approve the amendment to the Certificate of Incorporation increasing the number of authorized shares of Common Stock from 75,000,000 to 150,000,000.

The Board believes that the proposed amendment to the Company's Certificate of Incorporation is in the best interest of the shareholders and the Company for the reasons stated above.

The Board of Directors recommends a vote "FOR" approval of this proposal.

PROPOSAL 3
APPROVAL OF THE AMENDMENT TO THE PHOTRONICS, INC. 2000 STOCK PLAN
TO INCREASE THE NUMBER OF SHARES AUTHORIZED FOR ISSUANCE

Background

For the purpose of aiding the Company and its subsidiaries in attracting, retaining and motivating personnel and encouraging stock ownership by employees, the Company has had some form of stock option plan for employees since 1986.

The Photronics, Inc. 2000 Stock Plan ("Plan") was approved by the shareholders of the Company at the Annual Meeting held on April 4, 2000. This Proposal No. 3, if approved by the shareholders, would increase the number of shares of Common Stock available for Awards under the Plan. There are currently 1,000,000 shares of our Common Stock authorized for issuance under the Plan. Of that number, 979,950 shares have already been granted, leaving only 20,050 shares available for future grant under the Plan. In addition, there are currently only 13,713 shares available for grant under the Company's other employee stock option plans. This amendment would increase the number of shares of Common Stock authorized for issuance under the Plan from 1,000,000 to 2,500,000 shares. The Board approved this amendment at a regular meeting held on February 6, 2002 subject to the approval of the shareholders.

The Board believes the Plan should be amended to increase the number of shares authorized for issuance in order to enable the Company to provide stock based Awards to employees and non-employee Directors who have been responsible for the Company's financial success and who will help meet the Company's goals in the future. Approval of this proposal requires the affirmative vote of the holders of a majority of the outstanding shares of Common Stock present in person or by proxy at the Annual Meeting.

The Board of Director's recommends a vote "FOR" approval of this proposal.

The following is a summary of the material features of the Plan, as amended. The Plan is qualified in its entirety by reference to the text of the Plan, a copy of which was attached to the Company's 2000 Proxy Statement and may be obtained from the Company.

Administration

The Plan is administered by the Board of Directors or a committee of the Board (currently the Compensation Committee) composed of two or more directors (references to the Board also refers to such a committee, unless otherwise stated). The Board has the authority to determine, subject to the provisions of the Plan, to which employees or directors Awards are granted, the time at which Awards are granted, the number of shares subject to Awards granted, the option exercise price per share, the period over which the Awards vest, whether options are to be ISOs or NQOs (as defined below), the period during which each option may be exercised, and the conditions that are applicable to any restricted stock award or option, including whether any option or restricted stock Award shall be subject to performance objectives. The Board may make all other determinations related to Awards under the Plan. The Board may also accelerate the vesting date of any Awards and, with the consent of the holder, cancel, modify or amend any Award; provided that the Plan prohibits a reduction of option exercise prices except in connection with adjustments related to stock splits and other changes in the capitalization of the Company.

Plan Participation

Under the Plan, grants of stock options and restricted stock awards may be made to employee and outside directors of the Company, or approximately 1,726 individuals. As of the date of this proxy statement, Awards have been made to approximately 400 employees and directors of the Company covering a total of 979,950 shares of the Company's Common Stock.

Stock Options

Options may be granted that are intended to qualify as incentive stock options ("ISOs") under Section 422 of the Internal Revenue Code (the "Code"). Options that are not intended to qualify as ISOs (referred to as "non-qualified options" or "NQOs") may also be granted. Currently, in order to qualify as an ISO under Code Section 422, an option must, among other things (i) be granted only to an employee, (ii) be granted at an exercise price that is no less than 100% of the fair market value of the Common Stock on the date of grant (an exercise price of at least 110% of fair market value is currently required for an employee who owns stock or currently exercisable options exceeding 10% of the voting power of the Company's capital stock), and (iii) terminate no later than ten (10) years from the date of grant, or sooner upon termination of employment with the Company. The exercise price per share of each option may be paid, at the election of the optionee, in cash and/or by delivery of previously acquired Common Stock.

Restricted Stock

Upon the grant of a restricted stock Award under the Plan, a certificate representing the shares of Common Stock covered by the Award are issued in the name of the recipient of the Award, after execution by the recipient of an Award agreement and any other documents which the Board may require. The shares covered by the Award are subject to the possibility of forfeiture if restrictions and conditions established by the Board at the time the Award is granted are not satisfied, and such shares shall not be transferable by the recipient unless and until they are not longer subject to forfeiture. Such restrictions and conditions may include, among other things, specified measures of the Company's financial performance or the individual recipient's performance or continuation of the recipient's employment, or combinations thereof. Restricted stock Awards will not require the payment of any cash consideration by the recipient to the Company.

During the period the shares covered by a restricted stock Award are subject to forfeiture, the recipient of the Award has the rights and privileges of a shareholder as to such shares, including the right to vote the shares, but not the right to transfer or otherwise dispose of the shares or to receive dividends or distributions with respect to the shares. All dividends and distributions with respect to shares subject to forfeiture are also subject to the terms of the restricted stock Award. If and when the restrictions and conditions established by the Board have been satisfied, the recipient will receive unrestricted ownership of the shares and any dividends and distributions with respect thereto.

Upon the grant of a restricted stock Award, the Company incurs a compensation expense for financial reporting purposes with respect to the shares covered by the Award in an amount equal to the fair market value of the share at the date of grant. This expense is reported over the period during which the shares are subject to forfeiture.

Shares Available

A maximum of two million five hundred thousand 2,500,000 shares of Common Stock may be issued under the Plan; provided, however, that no more than (i) ten percent (10%) of such shares may be available cumulatively for grants of restricted stock, and (ii) fifteen percent (15%) of such shares may be subject to Awards granted to any individual in any calendar year. Such shares may be authorized but unissued shares, shares previously issued and reacquired by the Company, or both. Any shares subject to Awards which, for any reason, expire or are terminated or forfeited, become available again for the grant of Awards under the Plan. On February 12, 2002, the closing price of the Common Stock on the NASD National Market was \$32.99 per share. In the event of a stock dividend, share distribution, recapitalization, merger, consolidation, split-up, spin-off, combination or exchange of share or similar action with respect to the Common Stock, the Board makes adjustments to outstanding Awards and shares available for future grant in order to reflect any such event.

Termination of Awards

To the extent exercisable on the date of termination of employment or service as a director, NQOs are exercisable until thirty (30) days after termination for any reason, except in the case of death,

disability or for cause. If the holder's employment (or a director's service) is terminated due to death or disability, a NQO may only be exercised, to the extent exercisable on the date of termination, during the six (6) months after the date of such termination. All options expire immediately if termination of employment or service as a director was for cause. In no event, however, may any option ever be exercised after its term has expired. ISOs will terminate after termination of employment to the same extent as NQOs, but no later than the time periods required under Section 422 of the Code and the regulations promulgated thereunder.

If the employment or service as a director of a recipient of a restricted stock Award is terminated for any reason, other than due to death, disability or normal retirement, all of the shares which then remain subject to forfeiture are automatically forfeited and transferred to the Company at no cost to the Company. The Board may, if such termination is due to death, disability or normal retirement, deem that the restrictions or conditions on all or any of the shares subject to forfeiture have been met, subject to such further terms and conditions, if any, as the Board may deem appropriate.

The Plan provides that if a recipient of an Award engages in activities which are in competition with those engaged in by the Company (except with respect to employees residing in California) or other behavior contrary to the interests of the Company within one (1) year of leaving the employ of the Company, the Company may effect a forfeiture of any outstanding options and restricted stock and require such recipient to pay to the Company an amount equal to the difference between the market value of the shares acquired under Awards exercised or vested within one (1) year prior to leaving the employ of the Company after deduction for, in the case of an option, the exercise price of the options.

Transferability

The Board may permit participants to transfer NQOs to such persons, and upon such terms and conditions as the Board may determine. Otherwise, Awards granted under the Plan are not transferable other than by will or the laws of descent and distribution.

Change in Control

Upon the occurrence of a change of control of the Company (as defined in the Plan); (i) all options automatically become exercisable, (ii) the restrictions on all shares subject to restricted stock Awards lapse, and unrestricted certificates are issued to restricted stock holders; and (iii) the performance objectives set forth in any performance Award are deemed fulfilled.

Amendment and Termination

The Plan may be amended, suspended or terminated by the Board at any time, without the approval of shareholders or participants, provided that no such action may, without a participant's written consent, adversely affect any previously granted Award. In addition no amendment may be made without shareholder approval to the extent that, under applicable law and regulations, including the Code, such amendment would disqualify option for treatment as ISOs or would disqualify Awards for treatment as "qualified performance-based compensation" within the meaning of Code Section 162 (m). No grants may be made under the Plan after a date which is ten (10) years following the effective date of the Plan (April 4, 2010).

Certain Federal Income Tax Consequences

The following is a brief summary of the principal U. S. Federal income tax consequences of certain transactions under the Plan, based on current United States Federal income tax laws. This summary is not intended to be exhaustive, does not constitute tax advice and, among other things, does not describe state, local or foreign tax consequences.

Under the Code, no income is recognized by the recipient of a NQO at the time the option is granted, unless the NQO has a readily ascertainable fair market value. Upon exercise of a NQO, the optionee will recognize ordinary compensation income in an amount equal to the excess, if any, of the fair market value

of the shares exercised over the aggregate option exercise price (the "Spread"). The Company will generally be entitled to a deduction equal to the Spread, subject to any limitation on deductibility imposed by Section 162(m) of the Code, as discussed below.

When an optionee disposes of shares acquired by the exercise of a NQO, any gain or loss will generally be treated as a long-term or short-term capital gain, depending upon the holding period of the shares. The holding period for shares acquired pursuant to the exercise of a NQO begins on the date of exercise. An optionee's tax basis in shares of Common Stock acquired by exercise of a NQO will be equal to the exercise price plus the amount taxable as ordinary income.

If an optionee pays the exercise price of an NQO in full or in part with shares of previously acquired Common Stock, such exercise will not affect the tax treatment described above. With respect to such exercise, no gain or loss generally will be recognized to the optionee upon the surrender of the previously acquired shares to the Company. The shares received upon exercise which are equal in number to the previously acquired shares tendered will have the same tax basis as the previously acquired shares surrendered to the Company, and will have a holding period for determining capital gain or loss that includes the holding period of the shares surrendered. The value of the remaining shares received by the optionee will be taxable to the optionee as compensation. The remaining shares will have a tax basis equal to the fair market value recognized by the optionee as compensation income and the holding period will commence on the exercise date. Shares tendered to pay applicable income and payroll taxes arising from such exercise will generate taxable income or loss equal to the difference between the tax basis of such shares and the amount of income and payroll taxes satisfied with such shares. Such income or loss will be treated as long-term or short-term capital gain or loss depending on the holding period of the shares surrendered. Where the shares tendered to pay applicable income and payroll taxes arising from such exercise generate a loss equal to the difference between the tax basis of such shares and the amount on income and payroll taxes satisfied with such shares, such loss may not be currently recognizable if, within a period beginning thirty (30) days before the exercise date and ending thirty (30) days after that date, the optionee acquires or enters into a contract or option, including a reload option, to acquire additional Common Stock.

Upon the grant or exercise of an ISO, the optionee will not recognize income, but will recognize income only when he or she subsequently disposes of the shares. However, the amount of the income not recognized is a tax preference item for the purposes of computing the alternate minimum tax.

If the optionee disposes of the shares acquired no earlier than the later of one year from the date of exercise or two years from the date of grant of the ISO, the amount realized from the sale that exceeds the option exercise price will not be recognized by the optionee as ordinary income; rather, such amount will be taxed as a long-term capital gain. Also, the Company will not be entitled to any deduction.

If the disposition occurs prior to the later of one year from the date of exercise or two years from the date of grant (a "Disqualifying Disposition"), the optionee will recognize ordinary income equal to the excess, if any, between (a) the fair market value of the shares on the date of exercise of the option (or, if less, the amount realized on the disposition of the shares acquired on exercise); and (b) the option exercise price. The optionee will also recognize a long-term or short-term capital gain (depending on the holding period which begins on the date of exercise) on any further gain measured by the excess, if any, between the amount received upon disposition of the shares and the fair market value of the shares on the date of exercise of the option. An optionee's tax basis in shares of Common Stock acquired by exercise of an ISO will be equal to the exercise price plus the amount taxable as ordinary income. If an optionee makes a Disqualifying Disposition, the Company will be entitled to an income tax deduction equal to the amount recognized by the employee as ordinary income.

If an optionee pays the exercise price of an ISO in full or in part with previously acquired shares of Common Stock, the exchange will not affect the tax treatment of the exercise. Upon such exchange, no gain or loss generally will be recognized upon the delivery of the previously acquired shares to the Company, and the shares issued in replacement of the shares tendered to pay the exercise price will have the same basis and holding period for capital gain purposes as the previously acquired shares. An optionee, however, would not be able to utilize the holding period for the previously acquired shares for

purposes of satisfying the ISO statutory holding period requirements. Additional shares of Common Stock will have a basis of zero and a holding period that commences on the date the Common Stock is issued to the optionee upon exercise of the ISO. If such an exercise is effected using shares of Common Stock previously acquired through the exercise of an ISO, the exchange of the previously acquired shares may be a Disqualifying Disposition of such Common Stock if the holding periods discussed above have not been met.

If an ISO is exercised at a time when it no longer qualifies as an ISO, the option will be treated as a nonqualified option. Subject to certain exceptions for disability or death, an ISO generally will not be eligible for the Federal income tax treatment described above if it is exercised more than three (3) months following a termination of employment.

Unless a recipient of a restricted stock Award elects to be taxed at the time of grant with respect to the shares subject to the Award, the recipient will not recognize income until the possibility of forfeiture lapses. When, and as the possibility of forfeiture lapses, the recipient will recognize ordinary income in an amount equal to the fair market value of the shares at that time. A recipient of a restricted stock Award may elect, within thirty (30) days following the date of grant, to recognize ordinary income at the date of the grant with respect to the shares subject to the Award in an amount equal to the fair market value of the shares at the date of grant, determined without regard to the possibility of forfeiture. The Company will be entitled to a deduction at the time ordinary income is recognized by a recipient of a restricted stock Award equal to the amount so recognized. If a recipient of a restricted stock Award elects to be taxed at the date of grant and the shares are subsequently forfeited, the recipient is not entitled to a deduction as a consequence of such forfeiture and the Company must recognize as ordinary income the amount it previously deducted with respect to such Award. Any dividends with respect to shares subject to forfeiture pursuant to a restricted stock Award granted to a recipient who has not elected to be taxed at the date of grant of the Award are treated as additional compensation, taxable as ordinary income to the recipient and deductible by the Company when received by the recipient. If any election has been made to be taxed at the date of grant, the dividends represent ordinary dividend income to the recipient and are not deductible by the Company.

To the extent that the vesting period of any options or restricted stock Awards are accelerated on account of a proposed dissolution or liquidation of the Company, or a sale of substantially all of the assets of the Company, or the merger or consolidation of the Company with or into another corporation, the value of the options at the time of vesting could be treated as a "parachute payment" subject to an excise tax imposed on the holder. Such consequences would only follow, however, if the total "parachute payments" (including the value of the option) were of sufficient magnitude to give rise to "excess parachute payments" as defined in the Code.

PERFORMANCE GRAPH

The following graph compares the yearly percentage change at October 31(*) of the indicated year in the cumulative total shareholder return on the Company's Common Stock with the cumulative total return on (i) securities traded on the NASDAQ market, and (ii) publicly-traded securities of companies which have indicated that their business falls within Standard Industrial Classification (SIC) Code 367 (Electronic Components and Accessories) (the "Peer Index"). The graph assumes that \$100 was invested on October 31, 1996 in the Company's Common Stock, in NASDAQ market index and in the Peer Index, and that all dividends were reinvested. Although the Company believes this graph reflects favorably on the Company, it does not believe that the comparison is necessarily useful in determining the quality of the Company's performance or in establishing executive compensation.

CERTAIN TRANSACTIONS

The Company leased a building at one of its manufacturing facilities and a contiguous parcel of land from entities controlled by Constantine S. Macricostas, the Chief Executive Officer, and Chairman of the Board of the Company. The rent paid to these entities for the fiscal year ended October 31, 2001 was approximately \$84,000.

Financing for construction of such leased building and the acquisition of certain equipment was provided through the sale of industrial development bonds issued by the Connecticut Development Authority (the "CDA"). As lessee, the Company was obligated to serve as guarantor of certain of the bonds issued by the CDA. As of October 31, 2001 there was outstanding a total of approximately \$260,000 in principal amount of industrial development bonds for which the Company is a guarantor.

Mr. Constantine Macricostas is a founder, majority shareholder and the Chairman of the Board of RagingWire Telecommunications, Inc., a leading supplier of secure data center facilities and managed IT services, located in Sacramento, California. In 2002, the Company entered into a fifty-two month service contract with RagingWire to provide services to all of the Company's worldwide facilities at a cost of approximately \$3.2 million per year.

The Company believes that the terms of the transactions described above with affiliated persons were negotiated at arm's-length and were no less favorable to the Company than the Company could have obtained from non-affiliated parties.

INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

The Board of Directors has appointed Deloitte & Touche LLP to serve as the independent certified public accountants for the Company for its 2002 fiscal year. Deloitte & Touche LLP has served as the Company's independent certified public accountants since July 1992. Representatives of Deloitte & Touche LLP are expected to be present at the Annual Meeting, will have the opportunity to make a statement, if they desire to do so, and will be available to respond to appropriate questions.

OTHER MATTERS

As of the date of this proxy statement, the Board of Directors knows of no matters which will be presented for consideration at the Annual Meeting other than the proposals set forth in this proxy statement. If any other matters properly come before the Annual Meeting, the persons named in the proxy will act in respect thereof in accordance with their best judgment.

BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers and directors and persons who beneficially own more than ten percent of a registered class of the Company's equity securities to file an initial report of beneficial ownership on Form 3 and changes in beneficial ownership on Form 4 or 5 with the Securities and Exchange Commission (the "SEC"). Executive officers, directors and greater than ten percent shareholders are also required by SEC rules to furnish the Company with copies of all Section 16(a) forms they file. Based solely on its review of the copies of such forms received by it, or written representations from certain reporting persons, the Company believes that during the last fiscal year, all filing requirements applicable to its officers, directors and ten percent shareholders were satisfied.

SHAREHOLDER PROPOSALS

Shareholder proposals intended for inclusion in the Company's proxy statement for the 2003 Annual Meeting of Shareholders must be received by the Company no later than October 23, 2002 and must meet certain requirements of applicable laws and regulations in order to be considered for possible inclusion in the proxy statement for that meeting. In addition, for shareholder proposals to be presented at the 2003 annual meeting of shareholders without inclusion in the Company's proxy statement for that year, notice of such proposal must be received by the Company no later than January 6, 2003 to prevent the Company from being able to exercise its discretionary voting authority with respect to that proposal (subject to the rights of the Company and the proponent contained in the federal proxy rules). Proposals may be mailed to Photronics, Inc. to the attention of James A. Eder, Secretary, 1061 East Indiantown Road, Jupiter, Florida 33477.

SOLICITATION OF PROXIES AND COSTS THEREOF

The Company has retained Georgeson Shareholder Communications Inc., a proxy solicitation firm to assist the Company in soliciting proxies at this Annual Meeting for a fee of \$8,500 plus reasonable expenses. This proxy solicitation is being made by the Board of Directors of the Company and the cost of such solicitation of proxies will be borne by the Company. In addition, employees of the Company, without extra remuneration, may solicit proxies personally or by telephone or cable. The Company will reimburse brokerage firms, nominees, custodians and fiduciaries for their out-of-pocket expenses for forwarding proxy materials to beneficial owners and seeking instruction with respect thereto.
